Subject: CAREER ORIENTATION SEMINAR

Dear Mr. Idanan:

The **MFI Polytechnic Institute Inc. (formerly MFI Foundation, Inc.)** has been a firm advocate of technical education and training in its more than 45 years. To date, MFI has graduated more than 4,400 students in its formal learning courses under the Industrial Technician Program (ITP) and currently has graduated more than 400 Senior High School students. For its non-formal learning courses, we have trained more than 150,000 working professionals who upgraded their skills, shifted careers, students who wanted to have more hands-on training, or out-of-school youths who opted to take their second chance in the technical field. They now serve our country by being part of the technical workforce that operates diverse industry sectors here and abroad.

To reach out to more people who could benefit from building a career in academics and technical fields, MFI shall be offering the following SENIOR HIGH SCHOOL courses under Technical-Vocational-Livelihood (TVL) Track.

1. Computer Programming
2. Automotive Servicing

And new strands will also be offered this School Year 2022-2023. These are **Science, Technology, Engineering and Mathematics (STEM) and Accounting, Business and Management (ABM) Strands.**

With this, may we conduct a career talk at your school at any convenient date to your school and student? May we offer our programs to your graduating Grade 10 students who will pursue the TVL Track on their Senior High School? Our Marketing and Sales Associate, Ms. May Ann D. Seña, and School Coordinator, Mr. Dennis C. Valenzuela shall follow up on our request. Should you have questions regarding our program, you may reach us at phone numbers 0927-2687116/ 0929-5029485.

If you have any questions and concern, feel free to reply to this email or call us at 8632-0756. Thank you.

Best regards,

May Ann D. Seña
