MATERIAL**

The United States Agency for International Development (USAID) through the RTI International (RTI) ReachHealth Project, in collaboration with the Society of Adolescent Medicine of the Philippines, Inc. (SAMPI) will undertake the updating and revision of the Adolescent Job Aid (AJA) Manual, a holistic approach to reach out adolescent clients. The AJA Manual is being used in the training of health personnel who are serving the adolescents since 2010.

As part of the revision and updating process, a survey on the application of the Adolescent Job Aid (AJA) Manual among the trained health personnel will be conducted. It is in this connection that this Office, through the Bureau of Learners Support Services – School Health Division (BLSS-SHD), is requesting the participation of the School Health and Nutrition personnel from the Regional and Division Offices, and the School Registered Guidance Counselors/Designates to answer and disseminate the short survey about the Adolescent Job Aid (AJA).

1. This survey form is only for the personnel who have been trained on AJA and have been using the material in their work with adolescent clients.
2. Its aim is to elicit comments and feedback on how to improve the material. Inputs will be considered for updating and enhancement of the AJA material.
