OUR REF:

Date: February 8, 2023

Name: CARLEEN S. SEDILLA
Position: CESO V, Schools Division Superintendent
Department of Education
Region/City: Muntinlupa

Dear SEDILLA,

For over half a century, MILO has been providing generations of Filipino families with its nutritious cup of energy-giving nutrients in fueling their days ahead. Beyond this commitment, MILO has also become a strong advocate of grassroots sports development in the country together with its key partners: The Department of Education (DepEd), Philippine Sports Commission (PSC), and the Philippine Olympic Committee (POC).

We at MILO believe that sports and nutrition play a critical role to nation building. Through sports, children learn different character forming values such as discipline, confidence, and teamwork. These values can help them not just in sports, but also in life. Through nutrition, children get the energy and nutrients they need to fuel their champion journey.

Throughout the pandemic, Nestle Philippines and DepEd, signed a memorandum of agreement for the development of online learning modules and educational kits on health and wellness. As part of the partnership, MILO distributed over 15 million P.E. kits over the pandemic, consisting of MILO 24g sachets, and a learning module that highlights how active kids are better learners and the importance of nutrition.

Nestle Philippines is steadfast in its commitment to provide nutritious energy to elementary students especially as they reenter face-to-face classes nationwide. We have committed to provide 7.5 million nutritious servings of MILO to elementary students for schoolyear 2022-2023 via the MILO Sampling Caravan, in which we will also be providing them engaging and educational activities to espouse the importance of physical exercise and physical literacy to benefit their health and development.

As consulted with the DepEd External Partnerships Office and the Union of Local Authorities of the Philippines (ULAP) we will need to closely work together to help ensure we meet our ambition to distribute 7.5 million servings of nutritious energy for our schoolkids today.

With this, may we kindly set a discussion with your good office to discuss how to go about the logistics in conducting our MILO nutrition and sampling caravan in your school.
