Carleen S. Sedilla, CESO V
Schools Division Superintendent
Muntinlupa City

Dear Schools Division Superintendent Carleen S. Sedilla, CESO V,

Greetings from the Center for Integrated STEM Education!

Dow Chemicals Philippines, Philippine Business for Social Progress (PBSP), and the Center for Integrated STEM Education, Inc. (CISTEM) have collaborated to address the pressing need for **Plastics Sustainability Education**.

With the goal to empower the next generation of environment champions, the project aims to contribute to lessening plastic pollution by raising awareness and improving the knowledge, skills, and attitudes of teachers and learners in middle school on how to use plastics sustainably with the circular economy plastics principle.

We are formally inviting the following schools under the Schools Division Office of Quezon City to be our partners for the Plastics Sustainability Education project:

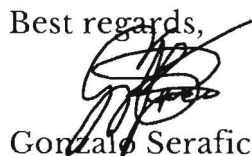

- Bayanan Elementary School
- Itaas Elementary School
- Putatan Elementary School

To jumpstart the project, we will conduct a training session for the teachers involved. We are requesting each school to send **three (3) representatives** - one (1) Grade 5 Science teacher and two (2) Grade 6 Science teacher to attend the **in-person teachers' training on March 17, 2023, at Dow Office Alabang, 6th Floor, One Griffinstone Building, Commerce Avenue corner Spectrum Midway, Filinvest Corporate City, 1781, Alabang, Muntinlupa, Metro Manila.**

Please confirm your attendance by replying to this email or contact Renz Nathaniel Delagana, CISTEM Project Coordinator, at 0998-997-7101.

Thank you and we look forward to your active participation in this cause.

Best regards,

Gonzalo Serafica, Ph.D.
Executive Director
Center for Integrated STEM Education, Inc.
