1. The Schools Division Office of Muntinlupa extends its strong support for **Muntinlupa National High School** as it competes for a spot in the Top 3 - **World's Best School Prize 2023 – Environmental Action Category** through their established innovation named **Revitalized Algae Microfarm Project (RevAMP)**. The selection process entails a rigorous and meticulous three-stage evaluation, which begins with an initial application review, followed by a comprehensive analysis conducted by an esteemed panel of experts in the field of education. A final assessment is then conducted by the T4 Education's Judging Academy composed of distinguished individuals from various fields across the world. This prestigious education award not only provides financial grants to sustain winning schools' projects but also offers them a global platform to showcase their best practices, allowing other schools to replicate their success.

2. Relative to this, commendation is given to the said school for being shortlisted as one of the Top 10 Finalists where the final winners will be selected. Likewise, this Office congratulates the project entrant **Mr. Jason B. Albaro** (Head Teacher V), school head **Dr. Antonio B. Rocha** (Principal IV), and the **RevAMP Team** for showcasing their innovativeness and dedication to promoting environmental sustainability. Please refer to the enclosed list of team members of RevAMP.

3. RevAMP is under a tripartite partnership agreement, through a Memorandum of Agreement (MOA) among the Department of Education (DepEd-NCR and SDO-Muntinlupa), the Department of Science and Technology (DOST-NCR), and the key stakeholder - I AM SAM Foundation.
