**SQUEEZE: THE NATIONAL ELECTRICAL AND ELECTRONICS ENGINEERING (EEE)
COMPETITION AND CONVENTION**

UP Circuit is an academic, non-profit, and non-political organization based in the Electrical and Electronics Engineering Institute (EEEI) of the University of the Philippines -Diliman. The organization aims to promote academic excellence in the field of Computer, Electrical, and Electronics and Communications Engineering that will encourage holistic development of its members through various activities within and outside the university.

The National EEE Competition and Convention will now be administered face-to-face and will be held on March 1 at the University of the Philippines Diliman.

The target participants are high school students who are willing to compete and test their intellect against other schools.

January 18, 2024
Director Jocelyn Dr. Andaya
Regional Director

Dear Director Andaya,

UP Circuit is an academic, non-profit, and non-political organization based in the Electrical and Electronics Engineering Institute (EEEI) of the University of the Philippines – Diliman. The organization aims to promote academic excellence in the field of Computer, Electrical, and Electronics and Communications Engineering that will encourage holistic development of its members through various activities within and outside the university.

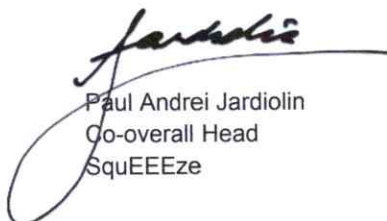

With the tradition of promoting academic excellence, UP Circuit has been bringing together the country's top young minds in the field of Electrical and Electronics Engineering in a battle of wits and brilliance. **SquEEEze**, our flagship event, is the **only national intercollegiate Electrical and Electronics Engineering quiz show in the Philippines**. Now in its **26th** year, SquEEEze continues to bring a set of events that will engage more excitement and challenge for a wider audience. SquEEEze provides an exhilarating and holistic learning opportunity not only for college students, but also for high school students from the different regions across the country who are willing to compete and test their intellect against other schools. Along with the annual intercollegiate quiz show, talks from different speakers will also be conducted. These talks aim to familiarize participating high school students with the basic applications of Electrical and Electronics Engineering, thus making them appreciate the field even more.

With the success of last year's event, SquEEEze: The National EEE Competition and Convention will now be administered face-to-face and will be held on **March 1** at the University of the Philippines Diliman.

In line with this, we would like to cordially ask for an endorsement from your office. This endorsement would greatly encourage students from different schools in participating in this campaign of academic excellence that our organization aims to impart. With the endorsement of the Department of Education - National Capital Region, we are hoping for a greater chance in extending this campaign to the bright minds of many young students.

We are looking forward to hearing a positive response from your office. For questions and concerns, please contact the undersigned event's heads or the head of competition, **Paul Jardiolin (+63 915 527 5540)**. A copy of the competition handbook will also be sent where you may find all the detailed mechanics for your reference.

Very truly yours,

Paul Andrei Jardiolin
