Dear Dr. Gonzales,

Good day!

We at Gokongwei Brothers Foundation, sincerely value our ongoing collaboration in strengthening STEM education across the country. Through the GBF Class Builder program, our partnership has played a key role in making a meaningful impact on educators and students alike.

As part of our continued commitment to gaining deeper insights into the impact of our program, we kindly request that you **urge all Grade 4 and 5 Mathematics teachers in the division who are enrolled in the GBF Class Builder to complete the evaluation form below by issuing a memorandum.** As we encountered limited responses from the previous quarters, we believe that teachers will be more encouraged to actively participate in sharing their valuable feedback and experiences through this directive.

We are hoping to receive their responses **until next week, Friday, March 28, 2025** as these will surely help us to iterate our program and to serve teachers better in the next school year.

Please let us know your confirmation to our request above and or if you require any additional details. We are looking forward to this opportunity to work closely with you in building the future through quality education.

Sincerely,

ANGELA DIANNE AGUSTIN
