Dear Dr. Gonzales,

Warm greetings!

The Gokongwei Brothers Foundation remains steadfast in its commitment of creating strong positive impact in STEM Education through the GBF Class Builder. **Currently, the program has grown to serve 8 regions, 45 divisions, and over 5,800 schools, reaching more than 40,000 teachers nationwide.** This growth reflects the collective efforts of our partnership in expanding access to quality education and strengthening classroom practices across the Philippines.

As part of our preparation for the upcoming executive-level check-in with your office, we are currently conducting a **Quarter 3 Feedback Survey among Grade 3 to 6 Mathematics teachers and Key Stage 1 ARAL Reading Remediation tutors in the division who are enrolled in the GBF Class Builder.** Their prompt participation is crucial to ensuring that the discussions arising in the executive-level check-in are guided by complete and representative feedback from teachers in your division.

In this regard, we seek your support in **issuing a memorandum requiring the participation of all teachers enrolled in the GBF Class Builder to complete the survey on or before February 24, 2026.** We believe that this will mobilize teachers to actively share their insights and experiences with the program, enabling us to capture comprehensive perspectives from your division.

For your reference, below is a summary of participation from last quarter's teacher survey:

SDO	Enrolled Teachers	Responses	Response Rate
Muntinlupa City	268	35	<b>13.06%</b>

We are sharing these figures to encourage full participation from teachers in your division. Broader response coverage will allow us to generate more representative insights and guide program enhancements as we scale the initiative nationwide. Please let us know your confirmation to our request above, or if you require any additional details. We look forward to this opportunity to work closely with you in building the future through quality education.

Sincerely,
