JUSTIFICATION:

The series of orientations on the Language Mapping Process (LMP) under DepEd Order (DO) No. 35, s. 2025/2026 and the associated data gathering for the development of the Language Identification Tool (LIT) are critical components of the Department of Education's efforts to implement a context-responsive and evidence-based language policy for Kindergarten to Grade 3 learners. The LMP operationalizes DepEd's mandate to systematically identify and classify learners' primary languages, which serves as the foundation for making informed decisions on the medium of instruction (MOI), particularly under the new policy environment for early grade education. DepEd Order No. 35 provides detailed guidelines and processes for regular language mapping activities, emphasizing accuracy, consistency, and legal compliance in gathering language data to guide classroom and instructional planning.

This initiative is grounded in Republic Act No. 12027, which discontinues the mandatory use of the mother tongue as the primary medium of instruction from Kindergarten to Grade 3 and instead designates Filipino and English as the primary languages of instruction, while still allowing optional use of the learners' first languages in monolingual settings that meet specific criteria. RA 12027 explicitly tasks DepEd, in consultation with the Komisyon sa Wikang Filipino (KWF), to develop and implement a language mapping policy and framework within one year of the law's effectivity to properly identify and classify learners by their native languages in order to determine the existence of monolingual classes. The orientations will ensure that school leaders and implementers have a deep and unified understanding of this statutory requirement and the technical steps involved.

The LMP also aligns with DepEd Order No. 20, s. 2025, which sets out the new policy on the Medium of Instruction for Kindergarten to Grade 3 effective School Year 2025-2026. In accordance with this policy, schools must use language data - specifically the actual languages spoken, understood, and used by learners - as one of the bases for determining the most appropriate MOI at the classroom level. This order emphasizes that language use decisions must be grounded in current, context-sensitive, and learner-specific data, rather than on prior default assignments or assumptions about learners' home languages. Orientations on the LMP therefore serve a vital role in operationalizing this directive by building capacity on accurate data collection and application.

A key component of the LMP is the development and application of the Language
