MEMORANDUM
DM-OULS-2026-168

TO : **ALL REGIONAL DIRECTORS**

FROM : *Carmela C. Oracion*
CARMELA C. ORACION
Assistant Secretary and Officer-in-Charge
Office of the Undersecretary for Learning Systems

SUBJECT : **CONDUCT OF SERIES OF WORKSHOPS ON THE STRUCTURED PEDAGOGY PACKAGE FOR KS4 CORE SUBJECTS WITH EDTECH AND INTEGRATIVE ASSESSMENT – PHASE 1**

DATE : **APRIL 27, 2026**

The Strengthened Senior High School (SSHS) Curriculum envisions learners who are competent, future-ready, and capable of applying knowledge across disciplines in authentic and meaningful contexts. However, current classroom practices reveal a significant gap between this vision and its actual implementation. Performance tasks are often treated as isolated culminating requirements rather than competencies that are systematically developed through daily instruction. As a result, learners experience stress, fragmented and excessive project requirements, inconsistent assessment practices, and limited interdisciplinary coherence.

Moreover, educational technology is frequently limited to the presentation of final outputs rather than being intentionally integrated throughout the teaching-learning process, including lesson introduction, concept development, guided practice, formative assessment, and feedback. These conditions hinder the gradual development of higher-order thinking skills, collaboration, problem-solving, and digital literacy competencies expected of SHS graduates.

To fully realize the goals of the curriculum and ensure coherent, scaffolded, and technology-enhanced instruction, there is an urgent need to develop structured Learning Delivery Guides that intentionally integrate Educational Technology (EdTech) and Integrative Performance Tasks (IPTs) within the instructional process.

In view of this, a series of workshops on the **Structured Pedagogy Package for KS4 Core Subjects with EdTech and Integrative Assessment** shall be conducted. The initiative aims to equip teachers with structured instructional frameworks that align competencies, scaffold interdisciplinary skills, and meaningfully integrate digital tools, and implement coherent and authentic assessment practices.

This undertaking directly supports the Five-Point Agenda of the Department of Education (DepEd) by strengthening curriculum implementation, advancing digital transformation in education, empowering teachers through targeted professional development, promoting learner-centered and inclusive practices, and enhancing system efficiency and coherence. By ensuring that performance tasks function as

authentic demonstrations of competencies intentionally developed over time, the initiative supports the full realization of the SSHS Curriculum and contributes to the attainment of the Basic Education Development Plan 2030.

In this regard, the Bureau of Learning Delivery – Teaching and Learning Division requests the assistance of your Region in identifying and inviting qualified personnel to serve as writers and validators for this initiative. The details of the activities are as follows:
