**UNLOCKING KNOWLEDGE ONE HIVE AT A TIME**

Attached is a letter from Ms. Gerlie P. Sevilla, Marketing Director, dated March 24, 2026, the contents of which are self-explanatory, for the information and guidance of all concerned.

Participation of public and private schools shall be subject to the no-disruption of-classes policy stipulated in DepEd Order No. 9, s. 2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.

Moreover, schools are reminded of the "No Collection and No Selling of Tickets Policy" stipulated in DepEd Order Nos. 19 and 40, s. 2008 and RA Nos. 4206 and 5546.

**DR. VIOLETA M. GONZALES, CESO VI**  
Schools Division Superintendent  
Schools Division of Muntinlupa City

Dear Dr. Gonzales,

Greetings!

Promoting science and technology is one of the major objectives of our team in Knowledge Hive. It is an interactive mobile science museum committed to inspiring and widening the perspective of the students about science. It aims to introduce this field to young people in a fun way and provide more hands-on experimental experience

Knowledge Hive has galleries that students can visit and learn a lot related to different fields of science, such as *astronomy, chemistry, natural sciences, and physics*. In every gallery, there are assigned guides and lecturers to discuss more information and to cater to the learners' queries. At the end of the exhibit, there are other activities such as kinetic sand with fossils, a plasma ball, a kaleidoscope, falling sticks, and an infinity mirror. For the students to enjoy themselves more, there are inflatable slides and a photobooth waiting for them.

With this activity, we make sure that our students will acquire knowledge while enjoying their visit to different galleries we have. They will be engaged in collaborative and fun learning outside the four corners of their classroom but still within the vicinity of the school campus. Rest assured that this won't interrupt their class schedules.

We are committed to helping and providing extra means of learning as support to our educational system. We want to give learners a quality and unforgettable experience.

We look forward to working with you hand in hand and together, letting us create a safe and quality education for our learners this coming school year 2026-2027.

Please feel free to contact our staff at (02) 8652-6817, 0951-071-1392, or by email at [knowledgehivecorp@gmail.com](mailto:knowledgehivecorp@gmail.com) if you require any further information or clarification

Respectfully,

  
**MS. GERLIE P. SEVILLA**
